BLUE LED SAFETY LIGHT
98-535B

PEDESTRIAN SAFETY

The IONNIC LED safety light is the latest innovation designed to increase pedestrian safety in areas where forklifts and other materials handling equipment maybe operating. By shining an intense blue light towards the ground, pedestrians will see an unmistakable warning that a vehicle is approaching even if the reversing alarm or flashing beacon are not noticed due to environmental conditions.

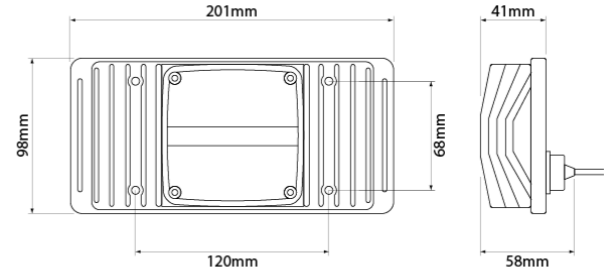

SPECIFICATIONS

- 9-48V
- Provides visual warning for pedestrian safety
- Ideal for forklift and other materials handling equipment
- Long life LED's
- Low current draw
- Polycarbonate lens for high durability
- Environmentally sealed aluminium body
- Blue light output

HAYMAN REESE REMOTE MOUNT BRAKE CONTROLLER
EB5550

The Hayman Reese Compact joins the already reliable range of Hayman Reese Brake Controls and like the name suggests is compact enough to be installed with space in mind.

The controls are mounted in the dash of the vehicle, with the main control unit mounted out of sight. There are very few tools needed to carry out the installation of the Hayman Reese Compact with a drill, crimp tool, wire cutter and circuit tester all you need to complete your job.

To meet the restricted mounting space available on modern shallow fronted SUV's and Utes, Lightforce have taken their most popular sized driving light, the 170mm and lifted it to the next level - an integrated ballast HID, with both 35w & 50w available.

- Compact size.
- Electric trailer brake control for 1-3 Axles.
- Plug & Play feature allows for quick and easy connection with the Hayman Reese Smartclick™ brake control harness.
- Unique "Sync" adjustment for towing different trailers.
- Flexible and neat mounting options.
- Green LED Indicator monitors a secure connection with your trailer.
- 3 Year Limited Warranty.
- Remote mount ensures no issues with hitching the brake control unit or damaging it, whilst moving in your vehicle.
- Remote mount is less likely to interfere with any airbag deployment zones e.g. knee or lower leg.
